Company Overview

History:

Founded in 2015 Crenza Systems is aimed to deliver the best of the technology to businesses around the globe. Although founders of Crenza have been in business since 2000 the company's inception took place in 2015 Lenexa Kansas. Currently we cater the I.T needs for small-medium businesses primarily around Kansas City metropolitan region with possible expansion to Saint Louis, Missouri in next couple of years.

"Crenza" in Galician is synonym for belief/faith and we that duly want that to represent our relationship with our customer base.

Vision Statement:

To be a pioneer in the world of technology by redefining product and services in a novice way - "the Crenza way".

Mission Statement:

We pride ourselves in being the transformers of thoughts to reality, solely because of our love and dedication towards technology we secure an impregnable trust which leads to a "masterpiece" and not just another product.

Core Competencies:

- Managed IT Service - RMM (Remote Monitoring & Management), O.S Updates/Patching, MDM (Mobile Device Management), Security (Antivirus/Anti Malware), Backup Solution, IT Consulting
- Cloud Backup - Premier backup solution to protect and save data offsite for Disaster Recovery. Compatible with most common Server and Desktop Operating Systems.
- Hosted Email - Our Email solution takes away all the hassles of managing local Email server. Get ready in minutes and let us manage the email solution for your business. All needed flexibility in terms of storage/mailbox and ability to IM/Chat.

- Web Design - We specialize in WordPress & Drupal platforms. Various SEO packages are offered and can be tweaked per your Business need.
- Web Hosting - We proudly offer Hosting at our Kansas Data Center that gives our clients one stop shop for their web needs. We take care of everything that is needed from get go.
- IT Consulting - We have the experience to optimize or put together a solution that can increase productivity for your business or replace your current system with a better product.

Core Members:

Vihang Paralkar (President) – A University of Central Missouri Graduate and founder of Crenza, LLC, he brings 15years of IT expertise working with numerous technologies and managing IT for Smaller Business. Crenza has a great captain and an experience leader. His expertise continues to bring the technology advantage to smaller entities that shy away from bigger service providers due to costs and inferior technology offered for smaller businesses.

Vihang started ground up with his IT Career back in 2000 and has covered areas like helpdesk administration, Client Management, Service Management, Disaster Recovery, Infrastructure administration and IT hardware and software consulting.
